Chapter 1 by SaintSayaka

Your name is Alex Gunnings, and you are the creator of the most popular cartoon show of the twenty first century.

It's won plenty of awards. Best sound design, best contribution to pop culture, best art, most searched term on Pornhub...but twenty seasons in, and you want to start working on something different. You don't know why this silly show about ponies became so popular amongst teenagers, but you need a break. A permanent break. And the executives at Masbro are never going to let you quit, not after how much money you've made them.

So you're going to intentionally sabotage the show.

Chapter 2 by SaintSayaka

It'll start off small. Little inappropriate background jokes that make reference to drugs, sex, and alcohol. Something that would most definitely fly over the heads of most children, but will make the mothers' groups go nuts. He'll appear on CNN and news networks that should be reporting on more important things and refuse to apologize. He'll mobilize the fanbase, who will be all to glad to stalk and destroy the opposition. Worsen their reputation, worsen the show's...

He would just need a finishing [illegible] to push it over the edge.

Ever impatient Alex set his plan into motion, even though he had yet to create its final steps.

Taking jokes from one of his side projects, The Sampsons(While Alex was passionate about this project, he'd yet to make any content as My Pretty Pony consumed his time), and littered MPP with dirty jokes and innuendo. You know, simple things. He snuck a glass mosaic of genitalia in some new backgrounds and had a character or two make a thinly veiled race joke to name a few. He even introduced some darker, more mature story arcs.

However, this managed to backfire quickly. For you see, Alex's main demographic was adolescents ages 3 to 18 and he had never managed to attract an older audience(exempting bronies).

However, the many sad parents out there, forced to watch what they saw as a stupid kids show were starved for any kind of adult content. Upon viewing the new, more adult content on the show. The parents rejoiced and their dry spells ended. Those parents went on to show the show to their friends and the show slowly gained momentum. My Pretty Pony found itself with a new more mature audience.

Against Alex's wishes, his show had gained a cult following.
